AMAS BARCODES

- Is your database ready?

To take **full advantage of postal discount**, attach AMAS barcodes to all outgoing PreSort mail.

HOW TO DETERMINE IF YOUR DATABASE IS READY FOR THIS?

1. Does your database contain unqualified records?
2. Does your database contain untold quantities of duplicates?
3. Does your database contain information in incorrect fields?
4. Does your database contain meaningless information of any description?
5. Does your database qualify for correct addressing to gain maximum postal discounts?

Our DataTools Software combines functionality and delivers the results needed in today's competitive business environment.

MAIL AND MARKETING SOLUTIONS CAN VERIFY YOUR DATABASE
using AMAS and Australia Post approved DataTools Software
We are offering every business a free database report
